Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Remarks On Election/Restriction Mailed On 09/12/2005

This supplemental action is in response to the conversation with Ms. Miyako Davidson on 09/22/2005 and 09/26/2005.

1. The examiner is withdrawing the election/restriction requirement that was mailed on 09/12/2005. During the conversation with Ms Miyako Davidson it was determined that the election/restriction requirement mailed on 09/12/2005 was in response to the original claims as received by the office on 12/24/2003 instead of the amended claims as received by the office on 12/24/2003.
2. Please see below the new election/restriction requirement for the amended claims that were received on 12/24/2003.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5,7,10,11, and 15-19 are drawn to a double eyelid forming tape comprising a resiliently elastic narrow tape, classified in class 428, subclass 343 and Class 132, Subclass 216.
- II. Claims 8,13, and 14 are drawn to a method of manufacturing a double eyelid forming, classified in class 156.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the

Art Unit: 1771

process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product (i.e. a double eyelid forming tape) can be made by another and materially different process. For example, a carrier sheet having an adhesive can be applied onto one or both of the surfaces of a resiliently elastic sheet member of a given length; the carrier sheet can then be removed from the adhesive surface; the holding portions with no adhering properties at both ends can be formed, and cutting the same in the widthwise directions into narrow strips.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Ms. Miyako Davidson on 09/26/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anish Desai whose telephone number is 571-272-6467. The examiner can normally be reached on Monday-Friday, 8:00AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
